

ALBART VICTA MWAMALUMBILI

Software Engineer | Full-Stack Developer

Dar es Salaam, Tanzania | Email: mwamalumbilialbart@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Software Engineer with hands-on experience in backend architecture, RESTful API development, and database-driven applications using Python, PHP, Laravel, and React. Demonstrates a well-rounded technical background combining full-stack web development, data-driven systems, and foundational network infrastructure awareness. Proven track record of architecting scalable applications for diverse business sectors while maintaining rigorous database integrity and clean code standards. Combines software engineering precision with systems diagnostic capabilities to deliver reliable, production-ready technological solutions

CORE SKILLS

- **Programming Languages:** Python, PHP, JavaScript, SQL
- **Frameworks & Frontend:** Laravel, Django, React.js, Vue.js, HTML5/CSS3
- **Backend & APIs:** RESTful API Architecture, Authentication Protocols, Middleware, System Integration
- **Database Engineering:** PostgreSQL, MySQL, Relational Schema Design, Query Optimization
- **Development Tools:** Git, GitHub, Postman, VS Code, Docker (Fundamentals)
- **Infrastructure & Networks:** Network Operations Support, LAN/FTTH Fundamentals, System Diagnostics

WORK EXPERIENCE

Software Engineering Intern | Web Corporation Limited | July 2026 – Present | Dar es Salaam, Tanzania

- Develop, evaluate, and test features for core enterprise platforms-including WebVFD,POS, Bus Ticketing, and Tracking solutions within internal local environments.
- Participate in progressive technical meetings, presenting status updates on software builds, bug fixes, and development cycles.

- Assist the technical team in configuring POS devices, setting up test environments, and delivering supplementary IT operational support.

Telecommunications Specialist (Field Training) | Tanzania

Telecommunications Corporation (TTCL) | June 2024 – September 2024

- Maintained infrastructure uptime by identifying and resolving hardware, switch and network faults before they affected communication services.
- Participated in physical site surveys, BOQ reviews, and technical inspections of telecom power backups (DEG and battery banks).

ICT Support & Systems Specialist (Field Training) | Muhimbili University of Health and Allied Sciences (MUHAS) | June – September 2025

- Supported institutional applications including **SARIS** and **PEPMIS** by diagnosing and resolving software and user-related technical issues.
- Assisted users in troubleshooting systems and improving day-to-day application availability
- Enabled uninterrupted seminars and institutional events by planning and managing ICT infrastructure and application support.

ADDITIONAL SKILLS & INTERESTS

- **Digital Branding & UI Design:** UI Asset Creation, Corporate Branding, Adobe Photoshop, Adobe Illustrator, Canva
- **Technical Interests:** Artificial Intelligence Integration, Data Analytics, System Security T Open-Source Development.
