

ALBART VICTA MWAMALUMBILI

Junior Systems Administrator | ICT Infrastructure & Network Support

Email: mwamalumbilialbart@gmail.com [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Junior Systems Administrator and ICT Infrastructure Engineer with practical experience supporting enterprise ICT environments at MUHAS and TTCL. Experienced in systems administration, network operations, infrastructure troubleshooting, database administration, and automation using Python. Passionate about datacentre operations, virtualization, cloud infrastructure, and enterprise technologies, with a strong ability to learn and quickly adapt to new platforms.

CORE SKILLS

- **Networking & Hardware:** Network Troubleshooting, FTTH Deployment, LAN/WAN Support, TCP/IP, Switch Configuration
- **Infrastructure & Systems:** Linux Fundamentals, System Administration, Infrastructure Monitoring, Database Administration
- **Cybersecurity:** Digital Forensics & Incident Response (DFIR), System Hardening
- **Systems & Databases:** System Administration, MySQL, PostgreSQL, Query Optimization & Database Backups
- **Automation:** Scripting & Automation (Python, PowerShell/Bash basics)
- **ICT Support:** Technical Support, Troubleshooting Institutional Systems (SARIS, PEPMIS), Hardware & Software Maintenance

WORK EXPERIENCE

IT Automation & Systems Projects (Academic Innovations) | *Ongoing*

- **Mwongozo Smart & Mgowelo AMCOS:** Developed database-centric management applications, utilizing Python and SQL scripts to automate information distribution, user log security, and Database Backup Automation

Telecommunications & Network Operations Specialist (Field Training) | Tanzania
Telecommunications Corporation (TTCL) | June 2024 – September 2024

- Expanded institutional and residential broadband access by deploying Fiber-To-TheHome (FTTH) across multiple local sites.
- Cut broadband network downtime by diagnosing and resolving physical and logical network switch faults before service degradation.
- Coordinated critical technical migrations for active clients between field operation engineers and end-user stakeholders.

ICT Support & Systems Specialist (Field Training) | Muhimbili University of Health and Allied Sciences (MUHAS) | June – September 2025

- Improved user satisfaction metrics on major institutional databases and portals (SARIS, PEPMIS) by accelerating ticket resolution..
- Minimized operational downtime across university departments by diagnosing and repairing critical hardware, software, and local network faults.
- Managed ICT infrastructure, network endpoints, and system configurations required for the seamless delivery of institutional training and seminars..

EDUCATION

Bachelor of Science in Computer Science and Software Engineering Ruaha Catholic University | 2023 – 2026.

Advanced Level Secondary Education Kanga Secondary School, Songwe-CBG | 2021 – 2023.

Ordinary Level Secondary Education Ilolo Secondary School, Songwe | 2017 – 2020

CERTIFICATIONS & TRAINING

- **Introduction to Digital Forensics** | Security Blue team | 2026
- **Introduction to Powershell** | Security Blue team | 2026

REFEREES

Liberatus Mrosso, Senior ICT Officer II, MUHAS | 0769 733 872,

Eng. Ezekiel Sanga, Telecommunications Engineer, TTCL-Shinyanga,

Meshack Shoo, ICT Officer II – SYSTEM DEVELOPER, MUHAS | 0762 081 742 |
